- 10mm clearance is required at each side of the boot.

Bits are to be safe and not badly worn at joint or rings.

Retention harness that is worn loose, frayed, insecurely fastened or in any way considered “suspect” is not permitted. Hard chin cups on retention harness are not permitted.

Sun protection covers are permitted on helmets provided that the cover is secure and does not interfere with the safety effect of the helmet.

The bit is not to be considered cruel or uncomfortable and must have sufficient clearance each side of the horse's mouth. Bits may not have a diameter of less than 6mm in the centre of the bit mouthpiece and 8mm at the outside of the mouthpiece. Corrugated or ridged bits are not permitted. Bits must lie in the correct position in the horse's mouth. (Refer the current Bit Dictionary.)
